## Company Profile

Established in 2008, Pragati Polymers is committed to delivering high-quality rigid packaging solutions with two production units spread across 60,000 sq. ft. and equipped with 23 blow, injection, and injection stretch blow moulding machines. We serve a diverse clientele across the pharmaceutical, hygiene care, and personal care sectors. Our team of skilled employees ensures smooth operations and consistent output.

We offer an extensive range of packaging products and also import premium components such as cream pumps, mist sprayers, acrylic jars, and more to meet specialized requirements. Our manufacturing setup is equipped with advanced capabilities like heat transfer labelling, silk screen printing, hot stamp foiling, sleeving, and wadding machines. With an in-house product development team driving innovation and a rigorous quality control department ensuring 100% product integrity, we maintain high standards across every stage.

A key highlight of our infrastructure is our 4,000 sq. ft. Class 100,000 clean room facility, built to meet the stringent requirements of pharmaceutical and high-end personal care packaging. This controlled environment minimizes particulate contamination and upholds superior hygiene standards, making it ideal for brands that demand precision, sterility, and regulatory compliance.

# Airless Bottles

## PP AIRLESS

Code	Capacity	Material	Dosage
AB- 2419	15 ml	PP + PE	0.22 cc
AB- 2410	30 ml	PP + PE	0.22 cc
AB- 2411	50 ml	PP + PE	0.22 cc
